

Claims

1. A textile product comprising
a textile substrate having a certain abrasion
resistance; and
a three-dimensional pattern applied on the textile
substrate, whereby
the three-dimensional pattern covers at least 15%
of the area of the textile substrate so that the
abrasion resistance of the textile product lies above
the abrasion resistance of the textile substrate.
2. A textile product according to claim 1, characterized in
that the three-dimensional pattern covers 25% to 50% of
the textile substrate.
3. A textile product according to claim 1 or 2,
characterized in that the three-dimensional pattern
consists of polyurethane, polyvinyl acetate and/or a
vinyl acetate copolymer.
4. A textile product according to at least one of claims 1
to 3, characterized in that the mass loss of the textile
substrate amounts to more than 0.03 g in an abrasion
test after 50.000 Martindale abrasion cycles, and that
the corresponding mass loss of the textile product lies
below the mass loss of the textile substrate.
5. A textile product according to claim 4, characterized in
that the corresponding mass loss of the textile product
is less than 0.02 g.
